2 Consider or evaluate possible tariffs by checking the product type and where it's come from.

3 Do a **risk assessment** on your business: have you/your management team **devoted time to considering the potential consequences** of Brexit – direct or indirect – on your business?

4 If you have one, consult with your **Management Team** on Brexit.

6 Map your **supplier and customer base** and consider how changes in the UK-EU trade relationship could affect them.

- 8** Do you have an EORI (Economic Operators Registration and Identification) number? This is an identification number for businesses importing and exporting in or out of the EU.

- 9** In the event of a UK-EU agreement following Brexit, consider whether changes are needed to your recruitment plans, investment plans and existing export and import lanes.
